6 1/2"	AF7LF			accent lights.
			AF7LF	All Dual Function fixtures with CAH7 accessory holder

## **Features**

1. Light Frost Filter: Heat tempered 3/16" thick clear glass. Lightly frosted to diffuse striations and shadows from lamp. Especially useful where a spot beam distribution of light is desired, but where a noticeable hot spot is unwanted. Light frost smooths the field of all lamp distributions.

 $\textbf{Note:}\ 2"$  lens may also be used in place of clear lens in 7027, 7036, 7037, and 7038 and Evolution series fixtures.
