# 207 SERIES

Shallow Economy Wraparound

207A232X2

SG  
Inside

A shallow economy designed wraparound fluorescent luminaire available for the use with two, three or four lamps in either two or four foot lengths. Low initial cost, maintenance free, this series also delivers excellent brightness control. The X2LED shallow wraparound fixtures utilize efficient LED T8 lamps that provide high lumen output with efficient energy savings. Since they don't require any ballast or driver the only component that will ever need changing is the LED T8 lamp. The lamps are warranted for five years. Unlike shallow wraparound fixtures that utilize LED arrays and drivers these fixtures have the flexibility to change wattage, lumens, and color temperature simply by changing the lamps without the need to call a licensed electrician.

### LAMP

2, 3, or 4 lamp positions

### CONSTRUCTION

Completely die formed from heavy gauge cold rolled steel. Design embossed ends are locked and secures to the housing. Wireway cover snaps on or off without tools.

### MOUNTING

Suitable for individual or continuous run installations. May be surface or pendant mounted.

### DIFFUSER

A crystal clear diffuser extruded from 100% virgin acrylic that will maintain its color under normal conditions, indefinitely. Linear prisms on the interior side walls direct the light ceilingwards, which can then refract back down. The bottom is composed of an evenly spaced pattern of conical prisms yielding low brightness, glarefree diffused light. Diffuser is lift and shift for ease of relamping and cleaning and is capable of hanging down from either side of the housing.

### SIZE W x L x H in inches

- 2 Lamp - 7.625"W x 24"L x 3"Dp (2ft.)
- 2 Lamp - 7.625"W x 48"L x 3"Dp (4ft.)
- 3 Lamp - 13.0"W x 48"L x 3"Dp (4ft.)
- 4 Lamp - 13.0"W x 48"L x 3"Dp (4ft.)

### X1 LED

The most economical, practical and user friendly series of LED fixtures with the energy savings, quality of light, long life and hassle-free maintenance. **X1 & X2LED fixtures are UL Listed with the latest LED T8 Bypass lamps.** Fixtures provide over 44% energy savings over comparable fluorescent fixtures utilizing less expensive fixtures than the fluorescent version (no ballast required) and have flexibility to change wattage and color temperature any time. Fixture performance will evolve over time with the evolution of the T8 LED lamp technology. Concerned about maintenance with an LED array and driver fixture, X1 LED solves that by utilizing a self contained LED lamp that fits into fixture just like a fluorescent lamp.

### Lamp Specifications:

Our T8 LED lamps are available in 2 or 4 ft sizes in different wattage, lumens and color temperature options. Savegreen Lighting is a premier supplier of LED T8 lamps and makes a variety of Bypass T8 lamps to meet the needs of your special application. Options include more energy efficient 12W, 15W and 18W lamps with Premium 10 Year warranty as well as high output options up to 3500 lumens. Double ended LED T8 lamps are also available. See lamp options and specs at [www.savegreenlighting.com](http://www.savegreenlighting.com).

### Optional Dimming Options:

The 4 FT lamps are available with two dimming options; Specially designed dimming lamps require an external driver that runs 1 or 2 lamps. So more than 2 lamps require multiple external drivers or Consult for Bypass Type B lamps that can be dimmed without any external driver and dim with standard 2 wire dimming. See dimming options and specs at [www.saylite.com](http://www.saylite.com).

### Emergency Options:

The standard X1 LED Lamps require an inverter or an All-in-one emergency kit that includes LED array, battery and driver. Dimmable T8 LED with external driver works with standard LED EM. For a 5 watt inverter that is similar to adding a 500 Lumen emergency in a conventional fluorescent fixture, add "INV5W" to the end of the item number. This will allow 5 watts of one lamp to work in emergency mode. Or add "EMKT12" to the end of the item number to get a 12W stand alone emergency kit in the fixture that comes with a driver, battery and small LED array that works in Emergency mode. See emergency options and specs at [www.saylite.com](http://www.saylite.com).

**Ordering Options**

Specify with Lamps by adding the lamp from selection below.

ITEM NO.	DESCRIPTION
207FR217X2	7" x 24" 2 Light Wraparound with Frost Prismatic Lens
207FR232X2	7" x 48" 2 Light Wraparound with Frost Prismatic Lens
207FR332X2	13" x 48" 3 Light Wraparound with Frost Prismatic Lens
207FR432X2	13" x 48" 4 Light Wraparound with Frost Prismatic Lens
207A217X2	7" x 24" 2 Light Wraparound with Clear Prismatic Lens
207A232X2	7" x 48" 2 Light Wraparound with Clear Prismatic Lens
207A332X2	13" x 48" 3 Light Wraparound with Clear Prismatic Lens
207A432X2	13" x 48" 4 Light Wraparound with Clear Prismatic Lens

For 12W Emergency Kit, add EMKT12 to the end of the item number for KTEMRGLED121200K1

For 5W Emergency, Add INV5 at the End of Item Number for KTEMRGLED5500AC. See other options at [www.saylite.com](http://www.saylite.com) For fixtures wired for double ended lamps, For fixtures wired for single ended lamps, change X2 to X1 and see the Savegreen Lamps below for the proper Single Ended Lamp.

### Savegreen T8 or T5 LED Lamp Options

To include one of these lamps in fixture, add Savegreen Inside code below.

(See [www.savegreenlighting.com](http://www.savegreenlighting.com) for specification sheets or more information on these lamp options.)
