# STANDARD METALARC®

# General Purpose Metal Halide Lamps

#### **Key Features & Benefits**

- Broad range available up to 1500W
- Well-balanced white light, available in 3000K and 4000K correlated color temperature
- Multiple choices allow design flexibility
- Low initial costs

- Universal operating position on most types
- Lead-free welded base and lead-free glass
- Durable mount structure and lamp construction
- Available in clear and coated
- Good CRI

STANDARD METALARC lamps are an economical choice for a high efficacy, long life, white light source.

SYLVANIA STANDARD METALARC lamps are offered in a range of wattages from 175 to 1500 watts. This family of lamps allows for design flexibility with multiple light source solutions to choose from. Lamps with universal operating position allow for a wider range of applications. In addition, METALARC lamps have significantly higher efficacy than mercury vapor or incandescent and considerably better CRI than mercury vapor and high pressure sodium. Wattages lower than 175W are also available as METALARC PRO-TECH® lamps for use in open fixtures.

## **Product Offering**

| Wattage | Bulb Shape | Finish        |
|---------|------------|---------------|
| 175     | ED-28      | Clear, Coated |
| 250     | ED-28      | Clear, Coated |
| 400     | ED-37      | Clear, Coated |
| 1000    | BT-56      | Clear, Coated |
| 1500    | BT-56      | Clear         |

# **Application Information**

## **Applications**

- Area lighting
- Greenhouses
- Indoor and outdoor
- Industrial and commercial
- Retail facilities
- Shopping malls
- Sports lighting
- Street lighting
- Warehouses

## **Application Notes**

- 1. Lamps are rated for use in enclosed fixtures (see footnotes for exceptions).
- 2. Most are designed for universal burning positions.

#### Fixtures

Contact your local fixture agent for available fixtures.

#### **Ballast Information**

Lamps are approved for use on systems meeting the respective ANSI standard (see Ordering and Specification Information section for more details).

<sup>1.</sup> S = When operated within 15 degrees of vertical, this lamp may be operated in an open luminaire, provided the installation is not near people or flammable or combustible material, otherwise it must be operated in a suitably enclosed fixture.

<sup>2.</sup> For lamp wattages of 360W and greater, it is recommended that lampholders with nickel-plated copper alloy center contacts (with spring) should be used rather than electrical contacts made of stainless steel.

#### **Sample Specification**

Lamp(s) shall be (a) METALARC® metal halide lamp(s) rated for universal operating positions and constructed with a lead-free welded base and lead-free glass..

## **Safety Information**

WARNING: This lamp can cause serious skin burn and eye inflammation from shortwave ultraviolet radiation if the outer envelope of the lamp is broken or punctured. Do not use where people will remain for more than a few minutes unless adequate shielding or other safety precautions are used. Lamps that will automatically extinguish when the outer envelope is broken or punctured are commercially available.
